## **Meeting summary**

For each team meeting provide the date, time, and location of the meeting. Indicate which members attended the meeting and itemized action items discussed in the meeting.

Tuesday Mar 11:

Trevor  
Joseph  
Braden

Python is the language decided to use for the backend.  
Decided on using Flask to host the backend.  
SQLAlchemy will be the database to use.  
Worked on getting Flask to display pages and their css  
Keep any local storage functionality until after March 20<sup>th</sup> demo
